

Not Just a Mall

You might think that I like to shop. NO. Well, maybe a little. O.K., a lot, but, what I have in mind is not just a mall. It is a place where you can find any store, restaurant, and any type of recreation. This mall will be everything.

At one end of the mall, all of the recreational areas will be located. There are adult and juvenile recreations here, such as a Chuckie Cheese, a Seabase, and the adult version, which is Dave and Buster's. In here, you will play video games and earn tickets for prizes. There will be an Ice/Roller Skating arena, where every Friday there will be an event. If you are more of a golfer, a glow-in-the-dark Miniature Golf Course will be available. Finally, if none of these take your fancy, Cosmic Bowling, will be a family fun activity.

At another end of the mall, your stomach will lead the way. A taste bud frenzy will be a heavenly get-a-way. Any restaurant that you can imagine will be located at this mall. There are very fancy, and very casual restaurants here. There are Wendy's, Pizza Huts, and Taco Bell's. There are Ruby Tuesday's, TGI Fridays, and Eatin' Park's. Just to name a few. And if you want to go a little more fancy, there are suit and tie restaurants galore!

How about kids who get grounded because of their grades, and can't come to the mall. NOT HERE! If you need tutors from all of the local schools, here to help cope with under achievers. All you have to do is sign up in the center of the mall.

Taylor Stash

I almost forgot to mention the stores. Over 100 different stores will be here. Clothing store, toy stores, sport stores, and many more. There are cheep prices everywhere!

Therefore this, "Mall" will be a great addition to our hometown.
